

Carriacou, Sandy Island/ Oyster Bed Marine Protected Area Socio Economic Monitoring (SocMon) Survey of Nearby Communities

Points to note

- ❖ N = The total number of surveys was 90.
n = the number of people who actually responded to the question
- ❖ Responses such as **I Don't Know**, **Not applicable**, **No response** are defined as missing values for SPSS (Statistical Package for Social Sciences) and are coded as 77, 88 and 99 respectively. When defined, SPSS excludes the user's missing data from the analysis.
